NPRA Safety Awards Program

The presentation of the NPRA Safety Award plaques is part of a comprehensive safety awards program which the Association's Safety & Health Committee has developed to promote accident prevention in the petroleum refining, petrochemical manufacturing, and contracting industries and to publicly recognize the excellent record of safety in operations which the industries and contractors have achieved.

NPRA Safety Awards are based on records kept for employees in accordance with OSHA record keeping requirements as defined by law and entered on the OSHA 300A summary form.

The Safety Awards Program honors NPRA Regular member companies operating U.S. refineries and petrochemical manufacturing plants as well as Associate member contractors working in those facilities. The program consists of the following awards.

NPRA

Awards

Distinguished Safety Award

The NPRA Distinguished Safety Award, (DSA) NPRA's most prestigious award, recognizes those member company refineries and petrochemical plants that have attained a superior level of safety performance in the domestic refining and petrochemical manufacturing industries. Recipients are chosen by a selection committee represented by members of the NPRA Safety & Health Committee. It is the selection committee's responsibility to carefully examine the safety performance records of individual plant locations using the specific screening and selection criteria detailed below.

Screening Criteria

In order to qualify for the DSA, a facility must first pass the screening criteria as described below:

1. A location must achieve an employee total recordable incidence rate of 0.6 or less and no employee lost workday cases involving days away from work for the evaluation period.
2. A location must achieve a contractor total recordable incidence rate of 0.6 or less and no contractor lost workday cases involving days away from work for the evaluation period.
3. A location must have had no employee workplace related fatalities and no non-employee (contractor, visitor, etc.) workplace related fatalities for two consecutive evaluation periods.

Selection Criteria

After passing the above screening criteria, the candidate facility's overall safety performance record will be evaluated by the Selection Committee considering the following selection criteria:

1. Overall performance history showing either continuously good safety or a steady improvement over three (3) consecutive evaluation periods.
2. Outstanding performance based on number of hours or years worked without a lost workday case involving days away from work.
3. Brief written application detailing specifics of the candidate location's safety program.

Awards

Meritorious Safety Performance Award

This award recognizes facilities which have achieved a total recordable incidence rate of 1.0 or less with no workplace related fatality of an employee or non-employee during 2009.

Gold Award

The Gold Award is awarded to those facilities which have achieved a 25% or greater reduction in the total recordable incidence rate with no workplace related fatality of an employee or non-employee during 2009, as compared to the average total recordable incidence rates for the three previous calendar years.

Award for Safety Achievement 1,000,000+ Employee Hours

This award acknowledges facilities for operating one million or more employee hours without an employee lost workday case involving days away from work and without a workplace related fatality of an employee or non-employee during the evaluation period.

Award for Safety Achievement 1+ Years

This award acknowledges facilities for operating one or more years without an employee lost workday case involving days away from work and without a workplace related fatality of an employee or non-employee during the evaluation period.

Contractor Award for Meritorious Safety Performance

This award recognizes those contractors working a minimum of 20,000 hours per calendar year at a Regular member facility who have achieved a total recordable incidence rate of 1.0 or less with no workplace related fatality during 2009.

NPRA Safety Award Recipients

The 18th Annual Safety Awards Celebration honors 59 Regular member companies represented by 81 refineries and 75 petrochemical plants with a grand total of 349 awards. Fifty-five Associate member companies are recognized for their excellent safety performance with 328 awards for their efforts in 120 facilities.
