

**NATIONAL OCCUPATIONAL
& PROCESS SAFETY
CONFERENCE AND EXHIBITION**

GRAND HYATT SAN ANTONIO
MAY 17 – 18, 2016

2016

Superior Safety is Fundamental to Business Success

The National Occupational & Process Safety Conference features an overview of both occupational and process safety challenges affecting the petroleum refining and petrochemical manufacturing industries. It assembles 450 individuals from industry with responsibility for health/safety, process safety, industrial hygiene, safety procedures, training, fire protection, emergency response, incident reviews, safety regulations, and safety management. Leading industry experts provide attendees with tangible practices, insights, and learning opportunities to improve safety performance at their site and company. Topics include: Industry Benchmarking, Process Safety Accountability and Leadership, Human Reliability, Lessons Learned from Safety Events, Industrial Hygiene, Process Safety Metrics, and Empowering Leaders. The National Occupational & Process Safety Conference provides attendees with an excellent opportunity to increase their knowledge, share best practices, and network with industry experts.

Vendor Exhibition

The National Occupational & Process Safety Conference also features a vendor exhibition where attendees have an opportunity to learn about the latest products and services available to the industry. Approximately 40 vendors exhibit during the conference.

Safety Awards Event

AFPM is pleased to honor those facilities and contractors that achieved excellent safety performance during calendar year 2015 at our Annual Safety Awards Event. This year, the event will be held at Sunset Station which is a National Historic Landmark. This 1902 Southern Pacific Railroad Depot has undergone a multimillion dollar renovation that restored the venue to its original grandeur. After the awards presentation, we'll celebrate with our featured entertainment, "The Highwaymen Live", a tribute band to Willie Nelson, Waylon Jennings, and Johnny Cash. This is a well-deserved fun evening with good friends, good food and good entertainment. Don't miss it!

SCHEDULE OF EVENTS

Monday

9:00 am – 5:00 pm

10:00 am – 5:00 pm

12:00 pm – 5:00 pm

May 16, 2016

Registration

Pre-Conference Workshop

Exhibitor Move-in

Tuesday

7:00 am – 6:30 pm

8:00 am – 11:00 am

8:00 am – 12:00 pm

12:00 pm – 1:30 pm

1:30 pm – 3:00 pm

3:30 pm – 5:00 pm

5:00 pm – 6:30 pm

Registration

Exhibitor Move-in

General Session

Lunch in the Exhibit Hall

Concurrent Breakout Sessions

- Process Safety Culture and Leadership
- Industrial Hygiene
- Reduce Your Risk!
- Process Safety
- Human Reliability

Concurrent Breakout Sessions Repeated

Reception in the Exhibit Hall

Wednesday

7:30 am – 4:00 pm

8:00 am – 12:00 pm

12:00 pm – 1:30 pm

1:30 pm – 3:00 pm

6:00 pm – 9:00 pm

May 18, 2016

Registration Open

General Session

Lunch in the Exhibit Hall

Concurrent Breakout Sessions

- Focusing on What Is Important
- Emergency Response
- Contractors
- Leadership

Safety Awards Event

PRECONFERENCE WORKSHOP

10:00 am – 5:00 pm

Presider:

Bill Hurt, Flint Hills Resources

**Welding Health Hazard Control
in Petrochemical Turnarounds**

Mike Harris, Hamlin & Harris, Inc.

This course describes common petrochemical welding and thermal cutting processes and the health/safety hazards associated with each of these processes. Terminology used in the welding industry is incorporated throughout this course as a means of familiarizing participants with the vocabulary used in the workplace. Materials, thermal processes and scenarios associated with potential for overexposures are described. Emphasis is placed on manganese and hexavalent chromium exposures as well as many other health and safety hazards. Suggestions for improving the quality of monitoring data are provided as are suggestions for prioritizing exposure assessments. Ventilation techniques and respiratory protection options are also described. An Excel spreadsheet for tracking relevant data for developing welding SEG's (similar exposure groups) is provided.

This course is geared toward people with health & safety responsibilities during turnarounds, welding shop supervisors and work permit issuers.

Course Outcomes

Upon completion, the participant will be able to:

- Describe general health and safety hazards associated with welding and thermal cutting;
- Develop an exposure assessment strategy for welding and thermal cutting strategies;
- Recognize and recommend effective ventilation for confined space welding and thermal cutting; and
- Identify issues that need to be addressed during welding and thermal cutting in confined spaces.

GENERAL SESSION

8:00 am – 12:00 pm

Presider:

Fritz Kin, Marathon Petroleum Corporation

Welcome

Bob Bahr, Exxon Mobil Corporation
Chair, AFPM Safety &
Health Committee

Keynote Address

David Dotson

*Managing Director, Operations
Excellence and Compliance
Koch Industries, Inc.*

David Dotson

Motivational Speaker

Garrison Wynn

*Author and Speaker
Wynn Solutions*

Garrison Wynn

Safety in the U.S. Navy

*Captain Gerald Prendergast, Safety,
Environmental, Maintenance and
Modernization Division
United States Navy*

**A New Approach for Thinking About
How Behaviors Influence Safety**

*James Stump, Sr. Vice President,
Refining Operations,
HollyFrontier Corporation*

Like many of our peers, HollyFrontier has long embraced traditional behavioral-based safety processes, which are targeted to influence workers' behaviors in the field when engaged in physical tasks. Learn how behaviors can impact both occupational and process safety on a much broader scale and see how HollyFrontier has applied the Five Pillar Behaviors of Operational Excellence to our daily work life, from the newest operations trainee to our CEO.

**Distinguished Safety
Award Presentations**

12:00 pm – 1:30 pm

Lunch in the Exhibit Hall

1:30 pm – 3:00 pm

**Concurrent Breakout
Sessions – Tracks 1-5**

3:30 pm – 5:00 pm

**Concurrent Breakout Sessions
Repeated – Tracks 1-5**

5:00 pm – 6:30 pm

Reception in the Exhibit Hall

**CONCURRENT BREAKOUT
SESSIONS**

Track 1 –

Process Safety Culture and Leadership

President: *John Grabowski*,
CITGO Petroleum Corporation

**We Who Are About to Live,
Salute You! – Building a Process
Safety Leadership Culture**

Kathy Harbison and Joe Cunningham,
Marathon Petroleum Corporation

Process safety incidents can affect an entire facility or community. All employees play a role in “Keeping it in the Pipes,” the simple goal of process safety. Implementing a successful process safety management system requires that all employees understand and embrace their role in “Plugging the Holes in the Process Safety Cheese.” This presentation will explain how one refinery in Illinois has developed a process safety leadership culture that engages the workforce, from operations and maintenance employees through the plant manager, to achieve process safety excellence.

Empowering Leaders

Liz McDaniel and Greg Oliver,
Huntsman Corporation

Many leaders fully support and are committed to process safety within their organizations. However, some leaders may not recognize key leadership behaviors needed to fully engage in leading their organization to process safety excellence. This presentation contains one approach being taken within the Huntsman Corporation to “empower leaders” with respect to process safety leadership. During this discussion, you will learn the details of this approach and the significant impact which can be achieved.

Track 2 – Industrial Hygiene

President: *Bill Hurt*,
Flint Hills Resources

Contractor IH Programs

This roundtable session will provide an overview of core IH programs for member contractor companies and how the programs were developed and implemented.

**June 1 is coming, are you
ready for GHS?**

Discussion of the challenges faced in order to comply with the imminent requirements of the revised hazardous communications standard for GHS.

Track 3 – Reduce Your Risk!

President: *Ronnie Meyers*,
Axiall Corporation

**Root Cause Analysis for
Safety – Revisited**

Shanahan Mondal, CVR Energy
Mark Galley, ThinkReliability

Root cause analysis is a well-known tool, but approaches and results vary widely. Organizations can become so focused on objectives and categorization that they lose sight of providing a thorough explanation with a clear plan of what will be done differently going forward. Fundamentally, root cause analysis is simply evidence-based cause-and-effect. This presentation will provide the dos and don'ts of conducting a complete investigation.

**Panel Discussion: High-
Consequence Events, Keeping
Life-Critical Rules Fresh**

Panelists:
Sean Horne, Valero Energy Corporation
Fritz Kin, Marathon Petroleum Corporation
Dean Maniatis, Phillips 66

These panelists will share their company's approach to life-saving rules, how the leaders in their company's embrace these rules, innovative ways these companies keep the rules and programs fresh, and some easy things to do and remember so future lives can be saved when your employees are performing critical tasks.

Track 4 – Process Safety

President: *Richard Giaconia*,
Philadelphia Energy Solutions

**Risk Assessment Tool for Liquid Overfill
of Process and Storage Vessels**

Ryan Wong, ExxonMobil Research and
Engineering Company

An overview of the process that a large company used to analyze the risk associated with liquid overfill from pressure vessels and atmospheric storage in both petrochemical and refining operations.

API ANSI RP 754 Changes

Dan Wilczynski, Marathon Petroleum
Corporation

This presentation will highlight the major changes to API ANSI RP 754, *Process Safety Performance Indicators for the Refining and Petrochemical Industries*.

Track 5 – Human Reliability

President: *Tom Myers*,
LyondellBasell Industries

Panel Discussion: I Walk the Line

Panelists:
Jerry Forest, Celanese Ltd.
Willis Jernigan, Flint Hills Resources
Lynn Richardson, Alon USA
Tim Murphy, Calumet Specialty Products

The program Walk the Line (WTL) addresses incidents caused by operator line-up errors. A panel discussion by AFPM member companies that have implemented some or all parts of WTL and an open discussion with questions and answers highlighting hurdles in implementation, successes seen so far, and plans going forward.

**Human Reliability in the Plant
Operating Environment**

This presentation will explore applications of the principles of human performance and human factors in the operating environment, with a specific focus on preventing process safety incidents. Current experience in implementing practices that enhance process safety performance through understanding and addressing the human element will be presented.

GENERAL SESSION

8:00 am – 12:00 pm

Presider:

Fritz Kin, Marathon Petroleum Corporation

Keynote Address

The Honorable Vanessa Sutherland

Chair, U.S. Chemical Safety Board

**It Happened Here: First-Hand
Accounts of Significant Events**

Dawn Wurst and *Willis Jernigan*,
Flint Hills Resources

One of the most influential change agents is personal experience, particularly if that experience was potentially or actually life-changing. Flint Hills will be sharing examples of efforts to capture those experiences via personal stories in order to maintain a felt sense of unease and respect for both personal and process safety.

OSHA and EPA Regulatory Update

Eric Conn, Conn Maciel Carey PLLC

Following the tragic West Fertilizer explosion in 2013, President Obama issued an Executive Order directing OSHA, EPA and other agencies to “modernize” the manner in which the government regulates chemical manufacturing processes. OSHA and EPA are taking sweeping actions in response to this Executive Order, from enforcement initiatives to rulemaking efforts to overhauling OSHA’s PSM and EPA’s RMP regulations, as well as some controversial backdoor rulemaking by interpretation letters and enforcement positions. This regulatory update will review the PSM and RMP changes we have already seen, and those making their way through the rulemaking process. The presentation will also cover other likely remaining OSHA rulemaking activity we expect over the balance of President Obama’s term.

**Lessons Learned from an
EHS Professional**

Cassandra Dillon, Systran, Inc.

In this presentation, lessons learned from an uncontrolled chemical reaction fire at a Batch Chemical processing facility will be explored. Discussed will be actions that are necessary and prudent in order to walk the road to recovery for both employees and company officials.

Incident at Tank 122

Lynn Richardson, Alon USA

In October 2014, Tank 122 was in the process of being degassed for what should have been a routine two week outage. However, multiple events came together at the same time resulting in a flash fire and explosion which caused extensive damage to the tank and burns to one contractor employee.

**Lessons Learned From A
Heater Detonation Event**

Thor Forseth, HollyFrontier Corporation

During the summer of 2014, we had an internal detonation event in a debutonizer reboiler after experiencing a loss of flame. Discussion will involve the subsequent incident investigation and the factors that led to the incident.

Occupational Safety Focus Project

Fritz Kin, Marathon Petroleum Corporation

The AFPM Safety & Health Committee is in the process of developing a program that allows site-level occupational safety professionals to meet on a regular basis to discuss and share knowledge about opportunities they see at the plant. This brief presentation will introduce the program to the audience and highlight some of its long-term goals.

12:00 pm – 1:30 pm

**Lunch in the Exhibit Hall
Passport Program**

1:30 pm – 3:00 pm

**Concurrent Breakout
Sessions – Tracks 1-4**

**CONCURRENT BREAKOUT
SESSIONS**

**Track 1 – Focusing on
What Is Important**

Presider: *Kate Lowry*, Ergon, Inc.

**Panel Discussion:
Developing and Implementing
High-Potential Event Metrics
Corporate-Wide**

Panelists:

Willis Jernigan, Flint Hills Resources

Dean Maniatis, Phillips 66

Representative, Exxon Mobil Corporation

This presentation will contain the different perspectives of three companies and how they developed and defined metrics based on their severity or potential severity, implemented these metrics across the corporation, and investigated these incidents. In addition, they will share the response from employees and leadership on these metrics and what they hope to see for the program in the future.

Track 2 – Emergency Response

Presider: *Randy Patton*,

HollyFrontier Corporation

**Developing Comprehensive
Training and Drill Programs**

Peter Greco, LyondellBasell

Houston Refining

This session will provide insight into ways to develop effective comprehensive training and drill programs for emergency responders. The program will discuss training challenges, building high performance teams, continuous improvement programs and performance over regulatory compliance. Also included in the program discussion will be examples of how to implement effective and sustainable training, education and exercise programs.

continued on next page

CONCURRENT BREAKOUT SESSIONS

continued from previous page

The Challenge of Maintaining Plant Emergency Response Teams – Doing More with Less

John Gross, Marathon Petroleum Corporation

Cody Fikes, HollyFrontier Corporation

This interactive session will highlight how two refining companies leveraged Corporate Fire Schools to increase their ERT readiness levels while maximizing ERT training and saving company dollars and will also explore 2016 challenges including: aging workforce and team membership, impact of API ANSI RP 755 *Fatigue Risk Management Standard*, engaging younger employees to participate on the ERT, and keeping the ERT motivated in a hectic world.

Track 3 – Contractors

Prsident: *David Carlin, Bay Ltd.*

Living Zero: Delivering Projects & Turnarounds Injury-Free

Brian Burre, Chevron Phillips Chemical Company

In the past few years, we have finally transitioned from talking about zero to living zero; successfully delivering multiple projects and turnarounds injury-free. In this presentation, program elements common to multiple projects and turnarounds delivered injury-free in 2015 and what has subsequently been done to imbed learnings from these events into future events will be shared.

Hazard Recognition and Mitigation Success Story

Robert Myak, BP Husky Refining
Ron Horner, Nexus Engineering Group

Beginning in early 2014 and continuing into 2015, the facility was struggling with a marked increase in serious near-misses and recordable injuries. Two recordable injuries in the first month of 2015 prompted immediate action. United In Safety, the site contractor safety council,

was concerned that an undesired trend was beginning and needed to be reversed. Upon review of the incidents, it was discovered that the injuries could have been prevented with proper hazard identification and mitigation. This presentation describes the actions taken to improve hazard recognition and pre-job task analysis at this site.

Track 4 – Leadership

Prsident: *Heather Harriss, Tesoro Corporation*

Safety Accountability

Bill Shaw, Evergreen Industrial Service

In the dictionary, the word accountability means to be responsible to somebody or for something. Safety accountability means to take ownership of your safety and your job. Accountability is a personal choice to rise above ones circumstances and demonstrate the ownership necessary for achieving desired results. The steps to personal accountability are: To See It, To Solve It, To Do It. The speaker will share his experiences as a VPP Coordinator and Senior Safety Specialist at Valero Refining and as a Vice President of Safety for Evergreen Environmental to inspire the audience to move from the victim mentality to taking responsibility and ownership of their lives.

Supervisors – Safety Force Multiplier

Rixio Medina, Board of Certified Safety Professionals

Supervisors play a key role for companies to achieve safety excellence and profitable operations. Many incidents happen or become catastrophic events because adequate supervisor safety competence is not available at the right time and place. This session will explore the roles, knowledge and skills necessary for supervisors to be Safety Force Multipliers and ways to achieve an accredited Safety Training Supervisor certification.

SAFETY AWARDS EVENT

6:00 pm – 9:00 pm

AFPM is pleased to honor those facilities and contractors that achieved excellent safety performance during calendar year 2015 at our Annual Safety Awards Event. This year, the event will be held at Sunset Station which is a National Historic Landmark. This 1902 Southern Pacific Railroad Depot has undergone a multimillion dollar renovation that restored the venue to its original grandeur. After the awards presentation, we'll celebrate with our featured entertainment, "The Highwaymen Live", a tribute band to Willie Nelson, Waylon Jennings, and Johnny Cash. This is a well-deserved fun evening with good friends, good food and good entertainment. Don't miss it!

Conference Bags

JCL Safety Services

1. Conference Registration and Tickets

Log on to www.AFPM.org and select "Register Now" or complete the enclosed registration form. Full registration includes admission to the General and Breakout Sessions, and the Reception and Luncheons on Tuesday and Wednesday in the exhibit hall. Order tickets for the Safety Awards Event separately. Refer to the registration form for conference and ticket fees. On-line registration closes May 9.

Exhibitor Only One-Day Pass:

Passes for attendance to only one day of the conference are available to Exhibiting Company Representatives Only. If you do not work for an exhibiting company you do not qualify for a one-day pass.

Fee Structure:

In order to encourage AFPM attendees to use the contracted hotel block at The Grand Hyatt, San Antonio, a tiered registration fee structure will be in effect. Registrants occupying a hotel room in the AFPM block at the Hyatt will pay a discounted registration fee \$200 less than those registrants who choose to stay outside the block or at an alternate hotel. Local commuter registrants, of course, will receive the discounted registration fee.

You'll save \$100 if you register by April 15!

2. Hotel Reservations

Reserve your hotel on-line when you register at www.AFPM.org and receive an immediate acknowledgement of your reservation. Or, fill in the appropriate space on the enclosed registration form. Hotel reservation requests will be processed in the order received by the AFPM. Get immediate acknowledgement on-line but allow 2 weeks if submitted to AFPM.

All individual reservations must be guaranteed by a major credit card. Cancellation policy: Cancellations may be made up to 48 hours prior to arrival with no penalty. Cancellations made after that time will be charged a one-night room and tax cancellation fee. April 15, 2016, is the cut-off date for making hotel reservations,

cancellations or substitutions through AFPM or on-line. Beginning April 22, 2016, reservations, substitutions, or cancellations must be made through the hotel directly.

3. Spouse Registration

For just \$100, your spouse can join you at the exhibit hall sessions as well as the included business sessions. A separate ticket must be purchased for the Safety Awards Event.

4. Payment

Pay by credit card. AFPM accepts American Express, MasterCard and Visa.

5. Travel

AVIS is the official rental car agency for the NSC. Call 800.331.1600 and refer to AWD#:B761300 to receive discounted rates.

6. Confirmation

Your registration will be confirmed via e-mail if you provided us your email address. Otherwise, your confirmation will be sent via U.S. mail.

7. Sponsorships

Show your support for your industry association. Contact Colleen Van Gieson for sponsorship opportunities at 202.457.0480 or sponsorships@afpm.org.

8. Attire

Conference and Awards Event:
Business casual (shirts with collars; no ties, jeans, sneakers or shorts).

Cancellation Policy:

Registration (full conference and/or workshop) cancellations must be submitted in writing, faxed to 202.835.0467 or e-mailed to NSC@afpm.org. Substitute conference registrations may be made in advance or on arrival with no penalty. Substitutions must be submitted in writing to NSC@afpm.org.

Cancellations may be made by April 15 with no penalty. Written cancellations postmarked, faxed, or emailed between April 16 and April 29, 2016 will receive a refund of fees, less a \$50 processing fee. No refunds after April 29, 2016. No telephone cancellations.

One-day Pass and Ticket Refund Policy:

Refunds will be made on one-day passes or awards event tickets purchased if request is received in writing by April 29, 2016. No refunds after April 29.

No Suitcasing Please:

Please note that while all meeting attendees are invited to the exhibition, any attendee who is observed to be soliciting business in the aisles or other public spaces, in another company's booth, or in violation of any portion of the AFPM Exhibition Policy will be asked to leave immediately. Please report any violations you may observe to show management.

Registration Policy:

Those who are present at the site of an AFPM meeting and/or occupy a hotel room in the AFPM room block to conduct business with industry personnel gathered for that meeting are expected to register for that meeting and pay the registration fee, whether or not they attend a specific function.

Fee Policy:

Eligibility for rates:

Member Fee: The member rate is based on membership information currently on file with AFPM. If your company is not currently a member, the non-member fees will be charged to your credit card.

Local Fee: Eligibility for the local fee is limited to those who will be commuting from home to the conference each day.

Spouse/Guest Policy:

A guest is a spouse/significant other, friend or an adult child (18 years old or older) who is not in an industry-related occupation. A co-worker, an associate or spouse who works within the industry may not use the Spouse/Guest Registration category. Guests are not permitted to work in an exhibit booth. Children under 18 are not permitted in the exhibit hall.

Photo Release:

By registering for this conference, I hereby grant AFPM, its licensees and assigns, the right to use my name, biographic material, as well as, photos, or videos taken of me during the conference in news media, websites, publications, programs, articles, and/or marketing materials.

Recording/Broadcasting Policy:

Videotaping, streaming or broadcasting of the exhibit hall, general sessions, workshops and discussions by any means is strictly prohibited. Any recording for purposes of reproduction or distribution without the written consent of the AFPM is strictly prohibited.

Ethical Responsibility and Professional and Personal Conduct Code

The American Fuel and Petrochemical Manufacturers (“AFPM”) has adopted the following “Ethical Responsibility and Professional and Personal Conduct Code” (hereinafter, “the Code”). Every member of AFPM, their designated representatives, and non-member attendees at all AFPM meetings and forums agrees to abide by the Code as a condition of membership in AFPM and attendance and participation at AFPM meetings and forums.

The Code requires the following of all individuals attending AFPM meetings and forums:

- Adherence to the AFPM bylaws and the AFPM policies and procedures, as adopted by AFPM’s Board of Directors.
- Strict compliance with antitrust laws.
- Adherence to all applicable federal and state laws.
- Maintenance of the highest level of professional and personal ethical behavior while attending AFPM meetings and forums.
- Prevention of certain behaviors, including harassment, violence, intimidation and discrimination of any kind involving race, color, religion, national origin, gender, sexual orientation, age, disability or, where applicable, veteran or marital status.
- Assurance that conduct at all times and in all professional and personal dealings with each other and other attendees is with the highest level of integrity and courtesy.

- Sharing of knowledge and expertise as speakers at AFPM educational events and sessions whenever practicable, without soliciting or explicitly promoting their own organization’s products or services.
- Working to instill public and consumer confidence in the petrochemical and refining industries, its member companies, and its professionals, avoiding any action conducive to discrediting members of AFPM.
- Refraining from scheduling general attendance meetings, receptions or other events at times that conflict with substantive programming or social events at AFPM meetings without express written permission of AFPM.

Failure to abide by the Code may result, for the first offense, in informal censure of a company or individual by the AFPM Executive Committee. If violations of the Code continue after such an informal censure, a company may be subject to expulsion from AFPM, or an individual to exclusion from participation in AFPM activities, by the Board of Directors.

Entertainment Policy:

We ask your cooperation in observing Association policy on activities held in conjunction with any AFPM meeting:

- Meetings or social activities should not be scheduled that take registrants away from AFPM programs and AFPM-sponsored activities;
- Any company sponsoring a function to which 25 or more people are invited should outline its plans for advance approval by AFPM. In general, such functions will be approved if they do not unduly take registrants away from AFPM-sponsored activities;
- All representatives of companies sponsoring hospitality activities are expected to register for the meeting;
- Hospitality suites are expected to close by 1:00 a.m.;
- Food, beverage and service personnel (bartenders, hostesses, etc.) must be obtained through the hotel catering department;
- Suite promotional activities are to avoid the use of elaborate entertainment, expensive door prizes, suite attendance solicitation by individuals who are not full-time employees of the sponsoring company, or other similar activities.
